Niner Mountain

Air 9 Blue
\$799.99

The Air 9 is Niners super light geared-only frame utilizing custom drawn Easton GX2 Scandium. Combining a truly advanced proprietary alloy with higher strength properties than 7005 series aluminum with the rare earth element of scandium, Easton achieved t [\[Product Details...\]](#)

Air 9 Carbon
\$1 799.99

Niner is dedicated to making their first carbon frame an extraordinary machine that goes way beyond status quo. Introducing the Niner Air 9 Carbon: a purpose-built to be incredibly light and fast, combined with the razor sharp handling and forgiving ride [\[Product Details...\]](#)

EMD 9 Brown
\$499.99

The E.M.D. 9 (Eat My Dust) is the least expensive frame in the Niner lineup, but this frame went through the same design process and had to meet the same design expectations required from every Niner frame. Even though the E.M.D. 9 uses a less exotic mate [\[Product Details...\]](#)

Jet 9 White
\$1 699.99

Niner JET 9 Frame Re-introduced for 2010, the JET 9 is our fast, light, race-ready full suspension bike. Designed around the same award winning CVA[®] suspension system found on Niners other suspension frames, the JET 9 features 80mm of plush, fully active [\[Product Details...\]](#)

SIR 9 Brown
\$799.99

The S.I.R. 9 is the most versatile bike in the Niner stable, fusing the "steel is real" feel of Reynolds tubing with the ability to run the frame as either a geared bike or single speed. The S.I.R. 9 uses the same custom drawn Reynolds 853 tubing as the M [\[Product Details...\]](#)
