Argon 18 Road

**Gallium**  
**\$2 999.99**

Flagship of the Argon 18 collection, the Gallium Pro has been completely reinvented for 2011. Guided by our HDS principles, our R&D staff has developed a new mold that maximizes tube size in the most appropriate areas of the frame. Our deformation resista [\[Product Details...\]](#)

**Gallium**  
**\$2 199.99**

A new design for 2011 Thanks to its lower bottom bracket and improved front lateral rigidity, the 2011 Gallium frameset exemplifies optimal balance and high performance. [\[Product Details...\]](#)

**Krypton**  
**\$1 499.99**

The Krypton has been revised with one thing in mind: to let riders make the most of their potential. This latest Krypton benefits from an added measure of efficiency, with an extra 17% rigidity where it counts as well as a newly-designed fork that matches [\[Product Details...\]](#)

**Randon**  
**\$499.99**

With a geometry that closely mirrors the Gallium Pro™s, this triple-butted aluminum and carbon combination offers outstanding value. The Radon is an excellent choice for cyclists looking to get serious about riding. As a result of data obtained in the Ga [\[Product Details...\]](#)
