Calfee Road

bamboo
\$2 699.99

This is not just a cool bike. It is appropriate for everyday use and for racing. The vibration damping is a performance advantage on longer rides. Each frame is built to order and every frame is a unique. Tubes are selected for the weight of the rider. Th [\[Product Details...\]](#)

dragonfly
\$3 799.99

Our lightest and most technically advanced frame. Although it weighs only 2.1 pounds* in a 54cm size, they are plenty stiff and carry a 25 year warranty. The Dragonfly was designed to be the lightest possible frame without sacrificing stiffness and rid [\[Product Details...\]](#)

Luna
\$1 899.99

The Luna was conceived as a model to compete with the bigger brands. With the awesome ride quality of a stiff frame that is comfortable at the same time, the Luna is also the toughest frame of the line up. The thicker walled carbon fiber tubes withstand c [\[Product Details...\]](#)

Tetra
\$2 699.99

Our classic frame, backed by a 25 year warranty. The 54 cm size weighs 2.5 pounds. The Tetra was originally designed in 1987 and has been refined to its current incarnation over the years. As the oldest continuously produced model of carbon fiber bicyc [\[Product Details...\]](#)
