**SLC Team Carbon**  
**\$2 699.99**

The high-end position couldn't be filled more confidently. Particularly noted for its low weight and its design for first-rate technology, the strong, premium class carbon fibre frame allows for product weights you could only dream of. This greatly enhances [\[Product Details...\]](#)

**SLR Aero**  
**\$2 199.99**

Exquisite design and technical brilliance: The SLR combines the specific details of an aerodynamic time-trial machine with the geometry and handling of a modern street racer. The carbon bike feels agile and very energetic. Innovative Aeroshape frame in [\[Product Details...\]](#)

**Vantage Ct**  
**\$1 299.99**

A trendy bike with high-end equipment. The Vantage features top-notch handling and an Ultegra drive-train (3 ring or compact). The low-weight frame comes in at 1,150g, its geometry specifically designed to cater to sportive amateurs and professional racer [\[Product Details...\]](#)

**Ventoux**  
**\$2 399.99**

Extravagant front-runner, stylish, light-weight, comfortable and powerful. This trend-setting model innovates and excels in all disciplines. A variant with fancy electronic Dura Ace components is also available. Hybrid construction: tube-to-tube and Mo [\[Product Details...\]](#)

**Xenon**  
**\$1 799.99**

Completely revised for this season, the Xenon features a 945g light frame and offers exceptional performance for its class. Both hobbyists and professionals will appreciate the best-seller for its great handling, outstanding visuals and distinguished tech [\[Product Details...\]](#)
