EA70 XC 26
\$499.99

Sure, anyone can make a really expensive, superlight wheel. But how many can deliver a superlight, incredibly durable, sweet riding wheel for little more than the change tucked into the cushions of your couch? The all-new EA70 XC wheel is a full 150-grams [\[Product Details...\]](#)

EA70 xc 29
\$529.99

Sure, anyone can make a really expensive, superlight wheel. But how many can deliver a superlight, incredibly durable, sweet riding wheel for little more than the change tucked into the cushions of your couch? The all-new EA70 XC wheel is a full 150-grams [\[Product Details...\]](#)

EA90 XC 26
\$899.99

We took our stalwart XC One wheel and pulled it into the future by completely redesigning the entire wheelset. Weâ€™ve not only trimmed 30-grams out of the pair, but weâ€™ve made them UST compatible (yep, light and UST ready right out of the box) and added a [\[Product Details...\]](#)

EA90 XC 29
\$924.99

We took our stalwart XC One wheel and pulled it into the future by completely redesigning the entire wheelset. Weâ€™ve not only trimmed 30-grams out of the pair, but weâ€™ve made them UST compatible (yep, light and UST ready right out of the box) and added a [\[Product Details...\]](#)

Haven 26
\$899.99

The result of Eastonâ€™s passion for engineering perfect solutions for specific types of riding, the Haven will deliver in any performance Trail or All-Mountain situation. Featuring an internal rim width of 21-mm, the Haven wheel is wide and beefy enough for [\[Product Details...\]](#)

Haven 26 Carbon
\$2 299.99

Whispering to the scales at just 1,450 grams per pair, the Haven Carbon is the lightest carbon rimmed, UST compatible all-mountain wheelset on the market and features the first carbon rim designed exclusively for the rigors of rugged trail riding. The Hav [\[Product Details...\]](#)

Haven 29

Haven 29 Carbon
\$2 299.99

Whispering to the scales at just 1,590 grams per pair, the Haven Carbon is the lightest carbon rimmed, UST compatible all-mountain wheelset on the market and features the first carbon rim designed exclusively for the rigors of rugged trail riding. The Hav [\[Product Details...\]](#)

Havoc
\$899.99

Believe. The all-new, all-badass Havoc. Somehow we pulled a full 150-grams out of last years Havoc, but added a full 1-mm to the rim width and added UST compatibility. Weâ€™ve redesigned, tweaked and tuned pretty much every part on the Havoc including an ev [\[Product Details...\]](#)

Havoc DH
\$799.99

Coming up with an aluminum wheel that is as light as it is durable is directly in Eastonâ€™s wheelhouse. From the Hyperlite bar to the category-leading EA90 stem, Easton has a long history of innovating in aluminum. The Havoc DH wheels rely on 32-mm wide al [\[Product Details...\]](#)

XC ONE SS 26
\$699.99

Up or down, single speed riding takes a toll on equipment. Fortunately we designed the XC One SS to tolerate the extreme torque and sharp hits single speed riders throw at their rigs. At the center of the XC One SS is the purpose-built Easton rear hub wit [\[Product Details...\]](#)

XC ONE SS 29
