Argon 18 TRI/TT

**Argon 18 Frameset**  
**\$3 999.99**

The bike of choice for some of the world's finest triathletes such as Tim Don™, Luke Bell, Ain-Alar Juhanson, Samantha McGlone and Bree Wee, the E-114 needs no introduction. Known for its stability and comfort, featuring the ONEness concept and AH [\[Product Details...\]](#)

**E 112 Frameset**  
**\$2 299.99**

For some, the E-112 is our top-of-line triathlon bike. Similar to the E-114 in that both are fabricated using the same mold, the 112, too, stands out for its stable, solid feel, superior aerodynamics and ease of control even during moments of all-out effort [\[Product Details...\]](#)

**E80 Frameset**  
**\$1 199.99**

Manufacturers rarely make much of a R&D commitment in developing an entry-level bike, yet thatâ€™s what we did last year when we totally redesigned the E-80, which now shares the same geometry we gave the E-114 and E-112, as well as internal brake and shift [\[Product Details...\]](#)
